Live

1st year students will try out group based work placements in different types of businesses to find out what they like and what they are good at. They will work on being well presented, behaving appropriately and staying healthy and safe at work.

2nd year students will have placements in work that matches their skills and aspirations. They will keep improving their employability skills around behaviour at work and staying healthy and safe.

3rd year students will start Supported Internships a job that suits them. They will spend most of their time in the workplace until they get a paid job. They will work towards skills they need to do the job well.

Thrive

Careers Activity	Description
Community visits 	Students visit local community facilities as independently as possible e.g. exchanging money for a product or service, loaning a book from a library and choosing an item from a menu.
Volunteering placements 	Students attend a placement in a voluntary setting with support from a Volunteer Placement Supervisor
Cooking 	Students plan, shop for and cook a basic meal.
Drama 	Students take part in drama sessions to develop communication skills and confidence.
Talk About 	Class session to discuss topics of interest to broaden learners understanding of current affairs and to improve confidence and communication skills
Transition Plan 	Document completed for each student with support from teaching staff and parents/carers to record long-term aspirations and actions needed to achieve them.
Visits to Adult Services 	Visits to Day Care and Direct Payment Services to explore possible transition destinations.
Individual Tutorials 	One to one meetings between each learner and their personal tutor to discuss progress and destination planning.
