**Testimonial for Ruth Martin**

**Social Media Support**

A testimonial to say a huge thank you for enabling Elias to do a virtual placement with us. He is currently helping us develop our social media content for Gear Up at the University and is doing an amazing job.

He has learnt to use Canva and in just a few weeks, he has got to grips with the programme and has really begun to understand our branding and our messaging.

I love having our online business meetings, they make my Wednesdays. Elias's enthusiasm and cheerfulness is infectious, and his positivity is inspiring.

He is an asset to the Hive college and all it stands for and I hope that with this experience he will achieve his goals and that soon we will be able to meet face to face.

Having a student from the Hive college can really help a business grow and develop and I cannot recommend them highly enough. Ruth, you do an incredible job!
